

I support Public TV and want it to continue-- it provides a much needed service to the public.

I also strongly oppose the FCC's "MB 5-311" recommendations to give companies like Comcast and Verizon a deduction for "in-kind" contributions. All over the United States, Public TV stations rely on the charitable contributions by people to maintain their stations. If big companies like Comcast and Verizon are allowed to deduct what they pay for the use of public airwaves by in kind contributions, it will destroy Public TV.
